

How to hoopla® on android

Updating, entering, or reentering your PIN

If you're receiving the error message shown below, you may need to update, enter, or reenter a PIN to continue using hoopla. To update your PIN settings, note the following steps:

- 1 From the upper right corner of the hoopla app, click the three vertical stacked dots to open the application settings.
- 2 Scroll down to the "Library Settings" section and click the "PIN" field to enter your PIN.
- 3 After entering your PIN, click "Save Library Settings."
